EXPERTISE IS Urgent Care

Expertise is Everything

Treatment for sprains, strains, fractures, and musculoskeletal injuries shouldn't require a long emergency room wait. Urgent injuries for bones, joints, muscles, and concussions require immediate care.

For trusted expert evaluation and care right through to recovery, we help you move on. Go to **UB OrthoCare** for on-site urgent care where we diagnose and treat:

- Broken Bones
- Hand Injuries
- Sprains
- Back Pain
- Concussions
- Shoulder Pain
- Foot and Ankle Injuries
- Tendon Injuries
- Arthritis
- Knee Injuries (ACL and Meniscus)
- Hip Pain
- X-ray, MRI, Bracing & Casting Available

UB ORTHOCARE Urgent. Orthopaedic. Experts.

We're ready with urgent, expert care.

UBMD Orthopaedics & Sports Medicine offers a solution that is faster, more efficient, and more specialized for orthopaedics than the ER. UB OrthoCare was created for treatment of sudden injuries occurring within the past seven days. From kids to adults, we treat every body.
