

EXPERTISE IS EVERYTHING FOR | Knees

We are Leaders in Knee Care

Your knee is the largest joint in your body making it one of the most complex. Because your knees get so much use, they are vulnerable to injury. And since they are made up of so many parts, a number of things can go wrong.

At UBMD Ortho, our staff specializes in the treatment of the following knee problems:

- Cartilage defects
- Ligament injuries
- Meniscal tears
- Osteoarthritis

Get Back in Motion

If you've experienced pain, swelling or the feeling that your knee is giving way, you should visit **UBMD Orthopaedics & Sports Medicine**. Knee injuries, whether sudden or the result of years of wear, can be repaired multiple ways. Our goal is always to regain motion and stability.

Full Range of Services and Treatment Options

Many times, relieving pain and discomfort can be solved by surgery, exercise, training or simple therapy. The **UBMD Ortho experts** have mastered techniques used to repair knee injuries and treat arthritic joints.

Non-surgical Treatments:

- Anti-inflammatory medications
- Dietary supplements
- Exercise programs
- Physical therapy
- Platelet rich plasma therapy (PRP)
- Steroid injections
- Viscosupplementation injections
- Weight loss programs

Surgical Treatments:

- ACL reconstruction
- Arthroscopy
- Autologous chondrocyte implantation
- Joint replacement
- Meniscal surgery
- Osteoarticular auto/allograft (OATS/Mosaicplasty)
- Osteotomy
- Patellar instability surgery

UB|MD ORTHOPAEDICS
& SPORTS MEDICINE

Trust the doctors who teach the doctors of tomorrow.

Our doctors are also professors at the University at Buffalo, training orthopaedic surgeons and physicians of the future and conducting cutting edge research that translates into new medical devices, treatment and care.
