

EXPERTISE IS EVERYTHING FOR | Sports Medicine

We Keep You Moving

Our board-certified physicians work with NFL, NHL and noted NCAA programs as well as collegiate and high school athletes. We care for the Buffalo Bills, Buffalo Sabres, and Buffalo Bandits - you can trust that we have the expertise to keep your players in the game.

We are Leaders in Sports Medicine

Our expert team at UBMD Orthopaedics and Sports Medicine consists of sports medicine specialists, orthopaedic surgeons, athletic trainers, and physical therapists that work together towards your recovery.

Sports medicine is a form of orthopaedic medicine that can help prevent injury and encourage recovery in both athletes and those that are generally physically active. Bones, muscles, joints, cartilage, tendons, ligaments, and more can be impacted by regular physical activity.

Our team can offer help off the field or on the field - we are equipped with the ability to provide medical professionals on-site whenever a player is at risk for injury or illness, working with teams, coaches, athletic trainers, and more to provide inmate access to sports medicine care.

If you've experienced a sports or exercise related injury or strain, UBMD Orthopaedics and Sports Medicine can help get you back in the game.

Trusted Orthopaedic Care for **Bones. Joint. Muscles. Concussions.**

Amherst | Buffalo | Depew | Niagara Falls | Orchard Park

Trust the doctors who teach the doctors of tomorrow.

Our doctors are also professors at the University at Buffalo, training orthopaedic surgeons of the future and conducting cutting-edge research that translates into new medical devices, treatment and care.
